THE SUNDAY JOURNAL AND ITS VARIOUS FEATURES

TO-MORROW'S EDITION WILL BE COMPILED WITH THE ONE OBJECT OF FURNISHING SOMETHING OF INTEREST TO EVERYONE—YOUNG OR OLD RESIDENT OR VISITOR.

To-morrow's paper, the Sunday Journal, will be another interesting edition. A great deal of work has been done upon it during the week with the special object of getting out a paper that will contain something to please everybody—young and old. Among the special features in The Journal to-morrow will be the following:

The official Mardi Gras program. A complete report of the Presidential inauguration with President Roosevelt's inaugural address. A breezy letter from "Lobbyist," in which that worthy individual discusses in his own inimitable style some current gossip in relation to the doings of the coming legislature. A special article by Supt. N. B. Cook, telling how "Uncle Albert" got a snake up his pants leg while on a hunt up Indian Bayou and how Senator Mallory cut the reptile's head off. Recollections of well-known Escambia county families by Prof. I. E. Allen. The always complete and interesting society department by Miss Beck. The puzzle feature which has so long interested the boys and girls of Pensacola, and the older ones as well.

The latest telegraphic and cable news by The Associated Press, and all of the local news by The Journal's staff of local reporters.

In addition to all this, a special Mardi Gras greeting will be given to the public through The Journal's advertising columns by the enterprising merchants of Pensacola. The Journal takes pride in the fact that its advertising columns are as well edited and as thoroughly up-to-date as any other department in the paper. The Journal would not allow an advertiser to advertise refrigerators in the middle of winter even if he wanted to, nor heaters in the mid-summer. Its advertising columns are crisp, clean, and in season, and they are just as attractive to the public as any other feature which The Journal publishes.

Get ready to enjoy a good Sunday paper. It will be delivered to you long before you are ready to sit down to breakfast.

If it is a bilious attack take Chamberlain's Stomach and Liver Tablets and a quick cure is certain. For sale by all druggists.

Fire, which occurred Thursday at Century, destroyed the two-story frame stable of William Brown, of that place. For a short while there was danger of the residence of Mr. Brown igniting, but good work upon the part of neighbors saved the residence. There were two horses in the barn at the time that it caught, but both were taken out before the fire had gained much headway. The origin of the blaze is unknown.

Sooner or later you'll use Blue Ribbon Lemon and Vanilla extracts because they are the "Best ever made." Why not commence to enjoy them now?

The meeting will be held in the office of the Clinical Association in the new Brent block and all of the members are urged to be present.

DEAD WOMAN RESIDED IN NEW ORLEANS.

By Associated Press.

New York, March 3.—A woman found dead last Saturday on the outskirts of Paterson, N. J., who has been partially identified two or three times under different names, has now been positively declared to be Lillian Austin, a native of New Orleans, who came to New York ten years ago. Her true name is said to have been Mrs. Salter, and it is believed a brother and sister still reside in New Orleans. Ten beggars who lived in a hut near where the woman was found have been detained by the police, but there appears little evidence against them. The coroner found that the woman died from exposure and ill treatment.

NEW HOSPITAL NOW COMPLETE

THE STATE BOARD OF HEALTH MAKES BADLY NEEDED IMPROVEMENT HERE.

The new hospital, which occupies the site of the old pest house in the northwestern portion of the city, is now completed, having been authorized and constructed by the State Board of Health. The new building was badly needed, and now that it is complete and modernly equipped in every department the local agent of the board has better facilities for caring for patients.

The hospital has been under construction for several months, and will be used exclusively for parties who may contract small pox or other contagious diseases. It is completely isolated from any community, and under the present arrangement is an excellent place for the treatment of such diseases.

The place has a capacity of eighteen patients and in addition to being a modern place for the care of the sick, has every convenience in a sanitary way, and it is not probable that the complaints which were formerly heard when patients were sent to what was known as the pest house, will again be heard.

SOCIAL DISSIPATION.

A young woman from a nearby town, who was recently visiting friends in Cleveland, was taken sick at the theatre. It became necessary to call a doctor from the audience, and one promptly appeared at the managers' office to render her assistance. After learning her symptoms, he ordered her to take a Red Raven. She was sent home in her carriage. When the excitement was all over the manager said to the doctor, "I would serve Red Raven to every lady in my audience if I thought it would keep them well." "That is not exactly the idea," said the physician. "This is a particular case. This young woman has been suffering from too much social dissipation. She has been going somewhere every night for the last two or three weeks, no doubt. A theatre with refreshments afterward, a party, a late dinner and decidedly too many luncheons. Her system has become overtaxed. Had she occasionally taken a Red Raven she would readily have stood this strain. As it was, she allowed herself to break down. There is nothing like Red Raven for people in her condition. But the trouble is they do not all know it."

CATHOLIC LADIES LUNCHEON.

The ladies of the Catholic church will serve luncheon Monday and Tuesday, during Mardi Gras, in the Blount building, corner Palafox and Garcon streets. The public is invited to be present and partake of it. 2mar4t

DECISION OF INTEREST TO IRON AND STEEL MEN.

New York, March 3.—A decision of interest to iron and steel manufacturers has been rendered by the United States circuit court of appeals. The decision affected the finding of the lower court and also the ruling of the board of general appraisers in declaring that metals assessed as wrought iron under section 188 of the tariff act were properly dutiable as metals not otherwise provided for under the similitude clause of the act of 1897.

The decision grew out of a protest against the assessment by the collector of the 20 per cent ad valorem on a quantity of merchandise invoiced as used in crucibles to harden armor plate and projectiles which were classified as metal unwrought. The importers claimed the ferros should come in under another section at \$1 a ton along with pig iron and scrap.

Doan's Kidney Pills have relieved her of the backache and made her kidneys stronger and better in every way than they have been in many years."
